SUBJECT INDEX

Addison's disease, — secondary to prostatic carcinoma. A case report, 611
Adenocarcinoma, Descriptive epidemiology of — of the cardia and distal stomach in the Swiss Canton of Vaud 167
——, Intestinal-type — of the nasal cavity and paranasal sinuses - A clinicopathologic study of 6 cases, 250
——, Syringomatous — of minor salivary glands, 286
Adenolymphoma, Follicular non-Hodgkins lymphoma in —: report of a case, 212
Adenoma, Diagnosis of malignant change in duodenal villous —, 499
——, Mononuclear cell infiltrate and HLA-Dr expression in 28 pituitary —, 543
Adenomyoepithelioma, — of the breast. A case report, 606
Adhesion, Characterization of a new murine tumor variant with different in vivo behavior selected by its adhesive properties, 345
Adriamycin, Sensitization of chronic myeloid leukemia cells to — cytotoxicity by clofibrate, 18
——, Enhancement of — cytotoxicity in sensitive and resistant sublines of human tumor cells by calcium antagonists, 450
Alcohol, — -related cancers in Mediterranean countries, 315
——, Percutaneous — injection of portal thrombosis in hepatocellular carcinoma: a new possible tratment, 394
Alpha-2 interferon, — and 5-fluorouracil in advanced colorectal cancer, 385
Alpha-2b interferon, Complete regression of laryngeal involvement by classic Kaposis sarcoma with low-dose —, 292
Aminoglutethimide, Thrombocytopenia following treatment with low doses of —, 511
Antigen, Is tissue polypeptide — still a useful tumor marker in breast carcinoma: comparison with Ca 15.3 and MCA, 360
——, Expression of two — defined by monoclonal antibodies in normal, benign and malignant human mammary tissues, 525

Bladder, Partial response to lonidamine of advanced — carcinoma a case report, 290
——, Evaluation of in-vitro effects of recombinant human α_2 interferon on bilharzial urinary — cancer cells, 582
Bone, Primary chemotherapy and delayed surgery for malignant fibrous histiocytoma of — in the extremity, 537
Brain, Severe hypotension in disseminated colon cancer due to a possible decreased dopamine — content: a case report, 398
——, Lung cancer with a single — metastasis: therapeutic options, 579
Breast, — cancer screening in an urban population in Northern Italy, 22
——, Hormones in male — cancer, 26
——, Observer variation in mammary thermography: results of a teaching file test carried out in 4 different centers, 29
——, Acute nonlymphoid leukemia following CMF treatment as adjuvant therapy in positive node — cancer: case report, 182
——, Trends in patterns of care for — cancer in Italy (1979-1987), 184
——, Sequential alternate administration of tamoxifen and medroxyprogesterone acetate in advanced — cancer: clinical-biological randomized study, 190
——, Mitoxantrone (M) and vinblastine (V) in the treatment of advanced — cancer, 196
——, Some further consideration on the role of oral contraceptives in — carcinogenesis, 220
——, The role of fine needle aspiration cytology in the differential diagnosis of suspected — cancer local recurrences, 225
——, Practice of early diagnosis of — and uterine cervix cancer in a Northern Italian town, 227
——, Cisplatin and mitomycin-C in advanced chemotherapy-refractory — cancer, 234
——, A metastatic — cancer with an unusual lymphoma-like presentation, 296
——, The role of diet history and biologic assays in the study of diet and — cancer, 321
——, Is tissue polypeptide antigen still a useful tumor marker in — carcinoma. Comparison with Ca15.3 and MCA, 360
——, Rome women's screening study: knowledge, attitudes and practices of women regarding screening for — and cervical cancer, 365
——, Prognostic impact of early detection of contralateral primary — cancer, 370
——, Transfection of human — epithelial cells with foreign DNA using different transfecting techniques, 455
——, Immunohistochemical expression of c-erbB-2 in human — cancer by monoclonal antibody: correlation with lymph node and ER status, 461
——, Cis-platinum-based alternating non-cross-resistant chemotherapy as a first-line treatment in metastatic — cancer: a phase II study, 472
——, Diagnostic efficacy of physical examination, mammography, fine needle aspiration cytology (triple-test) in solid — lumps: an analysis of 1708 consecutive cases, 476
——, Ultrasonographic evaluation of palpable — masses: analysis of 134 cases, 495
——, Diagnostic delay in — cancer: correlation with disease stage and prognosis, 559
——, Male — carcinoma: review of a multicenter series of 150 cases, 555
——, Adenomyoepithelioma of the —. A case report, 606
——, Intraductal — carcinoma: review of a multicenter series of 350 cases, 552
——, Expression of two antigens defined by monoclonal antibodies in normal, benign and malignant human mammary tissues, 525
——, Radiotherapeutic treatment for — cancer choroidal metastases, 563
Buserelin, Long-term results with the Gn-RH analogue, —, in metastatic prostate cancer, 66

Ca15.3, Is tissue polypeptide antigen still a useful tumor marker in breast carcinoma. Comparison with — and MCA, 360
Calcium antagonists, Enhancement of adriamycin cytotoxicity in sensitive and resistant sublines of human tumor cells by —, 450
Carcinogenesis, 5-fluorouracil — in BALB/c mice, 179
Carcinoma, Sequential and synchronous chemo-radiotherapy in the management of locally advanced — of the head and neck, 238
——, External radiotherapy in the treatment of tonsillar ——: analysis of 183 cases, 244
——, High prevalence of occult papillary thyroid — in a surgical series for benign thyroid disease, 255
——, Prognostic factors in stage-IV ovarian — treated with platinum-based regimens, 274
——, Partial response to lonidamine of advanced bladder — - A case report, 290
——, Cutaneous metastases from — of the cervix, 410
——, Male breast —: review of a multicentric series of 150 cases, 555
——, Intraductal breast —: review of a multicentric series of 350 cases, 552
——, Pseudocyst of tumor involution: a sign of nodal control in radiation therapy of head and neck —, 572
——, Addison's disease secondary to prostatic —. A case report, 611
Cardia, Descriptive epidemiology of adenocarcinomas of the — and distal stomach in the Swiss Canton of Vaud, 167
Cardiotoxicity, Evaluation of the cardiovascular toxicity related to cancer immunotherapy with interleukin-2 by monitoring atrial natriuretic peptide secretion: a case report, 603

Cell culture, Morphological heterogeneity and phenotype modifications during long term in vitro cultures of 6 new human glioblastoma cell lines, 172
CEOP regimen, — in the treatment of advanced low-grade non-Hodgkin's lymphomas: preliminary report, 533
c-erbB-2, Immunohistochemical expression of — in human breast cancer by monoclonal antibody: correlation with lymph node and ER status, 461
——, Rome women's screening study — Knowledge, attitudes and practices of women regarding screening for breast and cervical cancer, 365
Cervical screening, Survey of performance of cervical cytopathology laboratories and of screening programs in Italy, 434
——, Characteristics of women reporting —, 585
Cervix, Cutaneous metastases from carcinoma of the —, 410
Chemotherapy, Cisplatin and mitomycin-C in advanced — refractory breast cancer, 234
——, Prevention of cisplatin-induced vomiting in patients with cancer: a pilot study with a multiagent protocol, 278
——, High-dose epirubicin-cisplatin — for advanced soft tissue sarcoma, 467
——, Cis-platinum-based alternating non-cross-resistant — as a first-line treatment in metastatic breast cancer: a phase II study, 472
——, — in metastatic nonanaplastic thyroid cancer: experience at the Institut Gustave-Roussy, 480
——, Primary — and delayed surgery for malignant fibrous histiocytoma of bone in the extremity, 537
Chromatin, In situ Hpa II endonuclease digestion on fixed — of solid tumor cells, 530
Cis-platinum, — based alternating non-cross-resistant chemotherapy as a first-line treatment in metastatic breast cancer: a phase II study, 472
Cisplatin, Phase-II trial of cytarabine, — and vindesine for advanced non-small cell lung cancer, 35
——, — and mitomycin-C in advanced chemotherapy- refractory breast cancer, 234
——, Prevention of — induced vomiting in patients with cancer: a pilot study with a multiagent protocol, 278
——, High-dose epirubicin — chemotherapy for advanced soft tissue sarcoma, 467
——, Prevention of nausea and vomiting in — treated patients by a selective 5-hydroytryptamine (5-HT3) receptor antagonist, ICS-205-930, 595
——, A feasibility study of high-dose — and 5-fluorouracil with glutathione protection in the treatment of advanced colorectal cancer, 590
Clinical trials, Clinically useful measures to assess the effectiveness of treatments: hints for a proper choice with special emphasis on cancer research, 1
——, Evaluating radiation in combination with hyperthermia trials: the importance of clinical and technical parameters, 205
Clofibrate, Sensitization of chronic myeloid leukemia cells to adriamycin cytotoxicity by —, 18
CMF, Acute nonlymphoid leukemia following — treatment as adjuvant therapy in positive node breast cancer: case report, 182
Colon cancer, Severe hypotension in disseminated — due to a possible decreased dopamine brain content: a case report, 398
Colorectal cancer, A study of the pineal hormone melatonin as a 2nd line therapy in metastatic — resistant to fluorouracil plus folates, 58
——, Quality of care of — patients in general hospitals: diffusion and impact of management guidelines, 261
——, Alpha-2 interferon and 5-fluorouracil in advanced —, 385
——, A feasibility study of high-dose cisplatin and 5-fluorouracil with glutathione protection in the treatment of advanced —, 590
Conservative surgery, Results of — for stage-I lung cancer, 38
Cytarabine, Phase-II trial of —, cisplatin and vindesine for advanced non-small cell lung cancer, 35
Cytogenetics, — and occupational exposure to solvents: a pilot study on leukemias and myelodysplastic disorders, 350
Cytology, Practice of early diagnosis of breast and uterine cervix cancer in a Northern Italian town, 227
——, Survey of performance of cervical cytopathology laboratories and of screening programs in Italy, 434

Diagnosis, Prognostic impact of early detection of contralateral primary breast cancer, 370
——, Clinical characteristics, — and treatments of elderly patients with lung cancer at non-surgical institutions: a multicenter study, 429
——, Diagnostic delay in breast cancer: correlation with disease stage and prognosis, 559
1,2 *dichlorobenzene*, In vivo and in vitro interaction of — with nucleic acids and proteins of mice and rats, 339
Diet, Overview of available data on — and cancer mortality in France, 299
——, — and cancer risk in Northern Italy: an overview from various case-conrtol studies, 306
——, Dietary habits in Spain: an approximation, 311
——, The role of — history and biologic assays in the study of diet and breast cancer, 321
——, — and epithelial cancer of the thyroid gland, 331
DNA, Transfection of human breast epithelial cells with foreign —- using different transfecting techniques, 455
DNA methylation, In situ Hpa II endonuclease digestion on fixed chromatin of solid tumor cells, 530
Dopamine, Severe hypotension in disseminated colon cancer due to a possible decreased — brain content: a case report, 398
Doxorubicin, In vitro reversal of — resistance by the tiapamil analog RO-11-2933 in human ovarian cancer cells, 69

Epidemiology, Cancer mortality in Italy, 85
——, Cancer mortality in Italy: an overview of age-specific and age-standardised trends from 1955 to 1984, 87
——. Descriptive epidemiology of adenocarcinomas of the cardia and distal stomach in the Swiss Canton of Vaud, 167
——, Trends in patterns of care for breast cancer in Italy (1979-1987), 184
——, Incident lung cancer survival: long-term follow-up of a population-based study in Italy, 199
——, Overview of available data on diet and cancer mortality in France, 299
——, Diet and cancer risk in Northern Italy: an overview from various case-control studies, 306
——, Dietary habits in Spain: an approximation, 311
——, Alcohol-related cancers in Mediterranean countries, 315
——, The role of diet history and biologic assays in the study of diet and breast cancer, 321
——, Diet and epithelial cancer of the thyroid gland, 331
——, Rome women's screening study: knowledge, attitudes and practices of women regarding screening for breast and cervical cancer, 365
——, Parental occupation and other environmental factors in the etiology of leukemias and non-Hodgkin's lymphomas in childhood: a case control study, 413
——, Projections to the end of the century of mortality from major cancer sites in Italy, 420
Epirubicin, High-dose — cisplatin chemotherapy for advanced soft tissue sarcoma, 467
——, Phase II study with high doses of — in patients with advanced rectal cancer, 503
4-*EPI-doxorubicin*, Open phase-II with 5-fluorouracil, — and mitomycin-C (FEM) in advanced gastric cancer, 51
Epithelial cancer, Diet and — of the thyroid gland, 331

Fine needle aspiration, The role of — cytology in the differential diagnosis of suspected breast cancer local recurrences, 225
——, Diagnosis efficacy of physical examination, mammography, — cytology (triple-test) in solid breast lumps: an analysis of 1708 consecutive cases, 476
Fluorouracil, A study of the pineal hormone melatonin as a 2nd line therapy in metastatic colorectal cancer resistant to — plus folates, 58

5-fluorouracil, Open phase-II with —, 4-epi-doxorubicin and mitomycin-C (FEM) in advanced gastric cancer, 51
——, — carcinogenesis in BALB/c mice, 179
——, Alpha-2 interferon and — in advanced colorectal cancer, 385
——, A feasibility study of high-dose cisplatin and — with glutathione protection in the treatment of advanced colorectal cancer, 590
Folates, A study of the pineal hormone melatonin as a 2nd line therapy in metastatic colorectal cancer resistant to fluorouracil plus —, 58

Ganglioneuroblastoma, — and urticaria by physical agents, 282
Gastric adenocarcinoma, Liver glutathione contents in patients with —, 48
Gastric cancer, Open phase-II with 5-fluorouracil, 4-epi-doxorubicin and mitomycin-C (FEM) in advanced —, 51
Gastrointestinal cancer, Role of immunoscintigraphy in clinical assessment of gastrointestinal tumor, 270
—, Primary non-Hodgkin lymphomas of the gastrointestinal tract - Analysis of 41 cases, 379
——, The management of inoperable gastrointestinal obstruction in terminal cancer patients, 389
GLA-protein, Serum bone — in hypercalcemia of primary hyperparathyroidism and malignancy, 32
Glioblastoma, Morphological heterogeneity and phenotype modifications during long term in vitro cultures of 6 new human — cell lines, 172
Glutathione, Liver — contents in patients with gastric adenocarcinomas, 48
Gn-RH, Long-term results with the — analogue, buserelin, in metastatic prostate cancer, 66
Guinea pig, Thermal lesions induced by 480 KHz localized current field in — and pig liver, 54

Head and neck, Sequential and synchronous chemo-radiotherapy in the management of locally advanced carcinoma of the —, 238
——, Intestinal-type adenocarcinoma of the nasal cavity and paranasal sinuses: a clinicopathologic study of 6 cases, 250
——, Pseudocyst of tumor involution: a sign of nodal control in radiation therapy of — carcinoma, 572
——, Local adoptive immonotherapy of advanced — tumors with LAK cells and interleukin-2, 566
Hepatocellular carcinoma, Partial response of metastatic — after treatment with thymostimulin, 61
——, Percutaneous alcohol injection of portal thrombosis in —: a new possible treatment, 394
Histiocytoma, Primary laryngeal malignant fibrous — A case report, 403
——, Primary chemotherapy and delayed surgery for malignant fibrous — of bone in the extremity, 537
HLA-Dr, Mononuclear cell infiltrate and — expression in 28 pituitary adenomas, 543
Hormones, — in male breast cancer, 26
——, The influence of female — on malignant melanoma, 439
5-hydroxytryptamine, Prevention of nausea and vomiting in cisplatin-treated patients by a selective — (5-HT3) receptor antagonist, ICS-205-930, 595
Hypercalcemia, Serum bone GLA-protein in — of primary hyperparathyroidism and malignancy, 32
Hyperparathyroidism, Serum bone GLA-protein in hypercalcemia of primary — and malignancy, 32
Hyperthermia, Evaluating radiation in combination with — trials: the importance of clinical and technical parameters, 205

ICS 205-930, Prevention of nausea and vomiting in cisplatin-treated patients by a selective 5-hydroxytryptamine (5-HT3) receptor antagonist, — 595
Idarubicin, A phase II study of — and prednisone in multiple myeloma, 465
^{131}I-MIBG, Therapeutic possibilities of — in metastatic carcinoid tumors - Preliminary report, 484
Immunohistochemistry, Histopathologic and immunohistochemical features of neuroblastoma: a tool for evaluating prognosis, 374
Immunoscintigraphy, Role of — in clinical assessment of gastrointestinal tumors, 270
Immunotherapy, Evaluation of the cardiovascular toxicity related to cancer — with interleukin-2 by monitoring atrial natriuretic peptide secretion: a case report, 603
——, Local adoptive — of advanced head and neck tumors with LAK cells and interleukin-2, 566
In situ, — Hpa II endonuclease digestion on fixed chromatin of solid tumor cells, 530
Interferon, Evaluation of in-vitro effects of recombinant human α_2 — - on bilharzial urinary bladder cancer cells, 582
Interferon-alpha-2A, Vinblastine and — regimen in the treatment of metastatic renal cell carcinoma, 64
Interleukin-2, Correlation of serum — levels, soluble interleukin-2 receptors and T-lymphocyte subsets in cancer patients, 14
——, Evaluation of the cardiovascular toxicity related to cancer immunotherapy with — by monitoring atrial natriuretic peptide secretion: a case report, 603
——, Local adoptive immunotherapy of advanced head and neck tumors with LAK cells and —, 566

Kaposi's sarcoma, Complete regression of laryngeal involvement by classic — with low-dose alpha-2B interferon, 292
——, Cutaneous presentation of acute myeloid leukemia in a classical — patient, 400

Larynx, Primary laryngeal malignant fibrous histiocytoma: a case report, 403
Leukemia, Acute nonlymphoid — following CMF treatment as adjuvant therapy in positive node breast cancer: case report, 182
——, Cytogenetics and occupational exposure to solvents: a pilot study on — and myelodysplastic disorders, 350
——, Cutaneous presentation of acute myeloid — in a classical Kaposi's sarcoma patient, 400
——, Parental occupation and other environmental factors in the etiology of — and non-Hodgkin's lymphomas in childhood: a case control study, 413
Lipoma, Intramuscular (subfascial) vascular spindle cell —: a case report, 616
Liver, — glutathione contents in patients with gastric adenocarcinomas, 48
——, Thermal lesions induced by 480 KHz localized current field in guinea pig and pig —, 54
——, Inflammatory pseudotumor of the —: report of two cases, 517
Lonidamine, Partial response to — of advanced bladder carcinoma: a case report, 290
Lung, Phase-II trial of cytarabine, cisplatin and vindesine for advanced non-small cell — cancer, 35
——, Results of conservative surgery for stage-I — cancer, 38
——, Incident — cancer survival: long-term follow-up of a population-based study in Italy, 199
——, Clinical characteristics, diagnosis and treatments of elderly patients with — cancer at non-surgical institutions: a multicenter study, 429
——, Peripheral blood and tumor infiltrating lymphocytes in non-small cell — cancer: analysis at the population and clonal level, 488
——, Endobronchial metastasis of ovarian cancer. A case report, 614
——, — cancer with a single brain metastasis: therapeutic options, 579
——, Uterine benign-appearing smooth muscle tumor metastatic to the —: a case report, 513
Lymphocytes, Peripheral blood and tumor infiltrating — in non-small cell lung, cancer: analysis at the population and clonal, level, 488
Lymphoma, A metastatic breast cancer with an unusual — like presentation, 296

Magnetic resonance, Metastatic disease of the cavernous sinus: contribution of computed tomography and — imaging to diagnosis, 548

Mammography, Diagnostic efficacy of physical examination, —, fine needle aspiration cytology (triple-test) in solid breast lumps: an analysis of 1708 consecutive cases, 476
MCA, Is tissue polypeptide antigen still a useful tumor marker in breast carcinoma? Comparison with Ca15.3 and MCA, 360
Medroxyprogesterone, Sequential alternate administration of tamoxifen and — acetate in advanced breast cancer: clinical-biological randomized study, 190
Melanoma, The influence of female hormones on malignant —, 439
——, Malignant — of the penis. A report of four cases, 599
Melatonin, A study of the pineal hormone — as a 2nd line therapy in metastatic colorectal cancer resistant to fluorouracil plus folates, 58
Metastasis, Recurrent solitary — of renal cell carcinoma in skeletal muscles, 407
——, Cutaneous — from carcinoma of the cervix, 410
——, Uterine benign-appearing smooth muscle tumor metastatic to the lungs: a case report, 513
——, Therapeutic possibilities of ^{131}I-MIBG in metastatic carcinoid tumors: preliminary report, 484
——, Endobronchial — of ovarian cancer. A case report, 614
——, Lung cancer with a single brain —: therapeutic options, 579
——, Radiotherapeutic treatment for breast cancer choroidal —, 563
Mice, 5-Fluorouracil carcinogenesis in BALB/c—, 179
——, In vivo and in vitro interaction of 1,2-dichlorobenzene with nucleic acids and proteins of — and rats, 339
——, Characterization of a new murine tumor variant with different in vivo behavior selected by its adhesive properties, 345
Mitomycin-C, Open phase-II with 5-fluorouracil, 4-epi-doxorubicin and — (FEM) in advanced gastric cancer, 51
——, Cisplatin and — in advanced chemotherapy-refractory breast cancer, 234
Mitoxantrone, — (M) and vinblastine (V) in the treatment of advanced breast cancer, 196
Monoclonal antibody, Mov18 — in diagnostic applications: capability to recognize the histotype of the original tumor, 10
——, Immunohistochemical expression of c-erbB-2 in human breast cancer by —: correlation with lymph node and ER status, 461
——, Reactivity of polyclonal and two — with cell subset isolated from cystic fluids of ovarian serous neoplasms, 505
——, Expression of two antigens defined by — in normal, benign and malignant human mammary tissues, 525
Mov18, — monoclonal antibody in diagnostic applications - Capability to recognize the histotype of the original tumor, 10
Multidrug resistance, Clinical relevance of immunocytochemical detection of — associated P-glycoprotein in hematologic malignancies, 353
Myelodysplasia, Cytogenetics and occupational exposure to solvents: a pilot study on leukemias and myelodysplastic disorders, 350
Myeloid leukemia, Sensitization of chronic — cells to adriamycin cytotoxicity by clofibrate, 18
Myeloma, A phase II study of idarubicin and prednisone in multiple —, 465

Neonatal solid tumor, Neonatal malignant solid tumors, 81
Neuroblastoma, Histopathologic and immunohistochemical features of —: a tool for evaluating prognosis, 374
Non-Hodgkins lymphoma, Follicular — in adenolymphoma: report of a case, 212
——, Primary — of the gastrointestinal tract. Analysis of 41 cases, 379
——, Parental occupation and other environmental factors in the etiology of leukemias and — in childhood: a case control study, 413
——, CEOP regimen in the treatment of advanced low-grade —: preliminary report, 533
Non-small cell lung cancer, Phase-II trial of cytarabine, cisplatin and vindesine for advanced —, 35
——, Peripheral blood and tumor infiltrating lymphocytes in —: analysis at the population and clonal level, 488
Nucleic acids, In vivo and in vitro interaction of 1,2-dichlorobenzene with — and proteins of mice and rats, 339

Oral contraceptives, Some further consideration on the role of — in breast carcinogenesis, 220
Ovary, In vitro reversal of doxorubicin resistance by the tiapamil analog RO11-2933 in human ovarian cancer cells, 69
——, Histochemical study of mucinous ovarian cystomas of intestinal and mixed types - O-acetylated sialomucin content in relation to biologic behavior, 73
——, Prognostic factors in stage-IV ovarian carcinoma treated with platinum-based regimens, 274
——, Reactivity of polyclonal and two monoclonal antibodies with cell subsets isolated from cystic fluids of ovarian serous neoplasms, 505
——, Endobronchial metastatis of ovarian cancer. A case report, 614

Pancreatic cystadenocarcinoma, — and pregnancy: a case report, 294
Paraganglioma, Extra-adrenal non-functioning —, 258
Patient care, Quality of care of colorectal cancer patients in general hospitals: diffusion and impact of management guidelines, 261
——, The management of inoperable gastrointestinal obstruction in terminal cancer patients, 389
Penis, Malignant melanoma of the —: a report of four cases, 599
P-glycoprotein, Clinical relevance of immunocytochemical detection of multidrug-resistance-associated — in hematologic malignancies, 353
Pituitary, Mononuclear cell infiltrate and HLA-Dr expression in 28 — adenomas, 543
Platinum, Prognostic factors in stage-IV ovarian carcinoma treated with — based regimens, 274
Pleural mesothelioma, Thrombocytosis in malignant —, 576
Polyclonal antibody, Reactivity of polyclonal and two monoclonal antibodies with cell subsets isolated from cystic fluids of ovarian serous neoplasms, 505
Prednisone, A phase II study of idarubicin and — in multiple myeloma, 465
Pregnancy, Pancreatic cystadenocarcinoma and —: a case report, 294
Prostate cancer, Long-term results with the Gn-RH analogue, buserelin, in metastatic —, 66
Proteins, In vivo and in vitro interaction of 1,2-dichlorobenzene with nucleic acids and — of mice and rats, 339
Pulmonary carcinoid, — presenting as multiple subcutaneous nodules, 44

Radioactive, Improvement of — colloid binding by tumor cells, 217
Radiotherapy, Evaluating radiation in combination with hyperthermia trials: the importance of clinical and technical parameters, 205
——, Sequential and synchronous chemo — in the management of locally advanced carcinoma of the head and neck, 238
——, External — in the treatment of tonsillar carcinomas: analysis of 183 cases, 244
——, Pseudocyst of tumor involution: A sign of nodal control in radiation therapy of head and neck carcinoma, 572
——, Radiotherapeutic treatment for breast cancer choroidal metastases, 563
Rats, In vivo and in vitro interaction of 1,2-dichlorobenzene with nucleic acids and proteins of mice and —, 339
Rectal cancer, Phase II study with high doses of epirubicin in patients with advanced —, 503
Renal cell carcinoma, Vinblastine and interferon-alpha-2a regimen in the treatment of metastatic —, 64
——, Recurrent solitary metastasis of — in skeletal muscles, 407

Salivary glands, Syringomatous adenocarcinoma of minor —, 286
Screening, Breast cancer — in an urban population in Northern Italy, 22
——, Characteristics of women reporting cervical —, 585

Serum bone, — GLA-protein in hypercalcemia of primary hyperparathyroidism and malignancy, 32
Sialomucin, Histochemical study of mucinous ovarian cystomas of intestinal and mixed types - O-acetylated — content in relation to biologic behavior, 73
Soft part sarcoma, Alveolar — of the vagina, 77
Soft tissue sarcoma, High-dose epirubicin-cisplatin chemotherapy for advanced —, 467
Stomach, Descriptive epidemiology of adenocarcinomas of the cardia and distal — in the Swiss Canton of Vaud, 167

T-lymphocyte, Correlation of serum interleukin-2 levels, soluble interleukin-2 receptors and — subsets in cancer patients, 14
Tamoxifen, Sequential alternate administration of — and medroxyprogesterone acetate in advanced breast cancer: clinical-biological randomized study, 190
Thermal lesions, — induced by 480 KHz localized current field in guinea pig and pig liver, 54
Thermography, Observer variation in mammary —: results of a teaching file test carried out in 4 different centers, 29
Thrombocytopenia, — following treatment with low doses of aminoglutethimide, 511
Thrombocytosis, — in malignant pleural mesothelioma, 576
Thymostimulin, Partial response of metastatic hepatocellular carcinoma after treatment with —, 61
Thyroid, High prevalence of occult papillary — carcinoma in a surgical series for benign thyroid disease, 255
——, Diet and epithelial cancer of the — gland, 331
——, Chemotherapy in metastatic nonanaplastic — cancer: experience at the Institut Gustave-Roussy, 480
Tomography, Metastatic disease of the cavernous sinus: contribution of computed — and magnetic resonance imaging to diagnosis, 548
Tonsill, External radiotherapy in the treatment of tonsillar carcinomas: analysis of 183 cases, 244
Transfection, — of human breast epithelial cells with foreign DNA using different transfecting techniques, 455

Ultrasonography, Ultrasonographic evaluation of palpable breast masses: analysis of 134 cases, 495
Urticaria, Ganglioneuroblastoma and — by physical agents, 282
Uterus, The role of fine needle aspiration cytology in the differential diagnosis of suspected breast cancer local recurrences, 225
——, Practice of early diagnosis of breast and uterine cervix cancer in a Northern Italian town, 227
——, Uterine benign-appearing smooth muscle tumor metastatic to the lungs: a case report, 513

Vinblastine, Mitoxantrone (M) and — (V) in the treatment of advanced breast cancer, 196
——, — and interferon-alpha-2a regimen in the treatment of metastatic renal cell carcinoma, 64
Vindesine, Phase-II trial of cytarabine, cisplatin and — for advanced non-small cell lung cancer, 35

Stabilimento Grafico Scotti S.p.A. - Milano Direttore responsabile: Prof. UMBERTO VERONESI
Autorizzazione del Tribunale di Milano in data 18 ottobre 1948 n. 704 del Registro
